

## **Moving Prevention to Virtual Settings Organizational Technology Capacity Assessment**

*Before planning how to move your prevention strategies into a virtual setting, it is important to assess your organization's technology capacity. Complete the table below to gain a better understanding of your organization's capacity in this area.*

<p><b>1. What technology platforms does your organization currently have?</b></p> <p>Virtual meeting platforms (e.g., Zoom, WebEx, GoToMeeting):</p> <p>Collaboration software (e.g., Slack, Yammer, Basecamp):</p> <p>Social media accounts (e.g., Facebook, Instagram, Twitter, TikTok, SnapChat):</p> <p>Other:</p>
<p><b>2. What technology platforms do you not currently have but can easily acquire?</b></p>
<p><b>3. What are the technology platforms do you wish you had but can't easily acquire?</b></p>
<p><b>4. What training does your organization staff/volunteers need to feel comfortable and competent using the technology that you have?</b></p>
<p><b>5. What training resources exist in your organization – or beyond - that you can access?</b></p>
