Ripple Effect Mapping: A "Radiant" Way to Capture Program Impacts

Debra Hansen Kollock, Lynette Flage, Scott Chazdon, Nathan Paine, & Lorie Higgins

The first article about Ripple Effect Mapping (REM), which describes it as a promising method for conducting impact evaluation during a process that engages program and community stakeholders to retrospectively and visually map the "performance story" resulting from a program or complex collaboration. REM employs elements of Appreciative Inquiry, mind mapping, and qualitative data analysis.

A Field Guide to Ripple Effects Mapping

Scott Chazdon, Mary Emery, Debra Hansen, Lorie Higgins, & Rebecca Sero

This book describes Ripple Effects Mapping in detail and provides a comprehensive overview and in-depth examination of the origins, elements, and how-to of the REM process. There are several case studies that might be similar to your organization or community. It is available for hard copy purchase or free pdf download.
