

Tool 1: Setting Sustainability Goals

Drafting Process Goals	Drafting Intervention Goals
<p>Consider the processes needed to support successful strategic planning. Are each of these processes firmly established in your community (i.e., a stable community partner is responsible for its continuation)?</p> <p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>	<p>Consider the interventions that meet all of your criteria for success. Are all of these interventions firmly established in your community (i.e., a stable community partner is responsible for its continuation)?</p> <p>YES <input type="checkbox"/> NO <input type="checkbox"/></p>
<p>If you answered NO to the question above for any processes, brainstorm one or more goals to help ensure the continuation of these processes.</p>	<p>If you answered NO to the question above for any interventions, brainstorm one or more goals to help ensure the continuation of these interventions.</p>

DATA INFORMED, REALISTIC AND SHARED...

Are your drafted goals:

- Based on objective data about what will benefit your community? YES NO
- Realistic for your community (typically two or three goals in total)? YES NO

If your drafted goals are both objective and realistic, you are ready to share these goals with your full prevention task force and other key partners. Their early buy-in will help to ensure their support and participation as you work to achieve these goals over time.

Once you have the support of your prevention partners, list your community's final sustainability goals here.
