

Tool 2: Selecting Your Sustainability Approach

Use this tool to brainstorm different possible actions you can take to reach your sustainability goals. For each action, identify the sustainability process or intervention

 P²	<p>Can you pass off the selected prevention practice to another organization or develop a policy that institutionalizes the practice?</p>
 E	<p>Can you earn money from implementing the practice?</p>
 A	<p>Can you ask for money from some type of funding source to support the practice?</p>
 R	<p>Can you change or reconfigure how the practice is implemented in such a way that facilitates sustaining it?</p>
 S	<p>Can you share the practice with another organization?</p>

* Special thanks to Cynthia Bargar for use of this model.
