

What LGBTQIA2S+ BIPOC want Prevention Professionals to Know?

LGBTQIA2S+ BIPOC resources

April, 2022.

Inclusivity Statement: the National Hispanic and Latino PTTC understands that there is a lot of important discussion focusing on the terminology individuals choose to use for racial, ethnic, heritage, and cultural identification. There are different terms such as Latinos, Latinas, Hispanics, Latinx, Latine, Chicano, and others, all equally valuable. We advocate for self-identification for every person. For purposes of this resource and additional materials, our Center will be using the term Latina and Hispanic.

What LGBTQIA2S+ BIPOC want Prevention Professionals to Know? **Directory of resources**

The Central East PTTC, Central East ATTC, National American Indian & Alaska Natives PTTC, and the National Hispanic and Latino PTTC joined efforts to proudly present a 4-part virtual learning series titled 'What LGBTQIA2S+ BIPOC want Prevention Professionals to Know?' last summer.

In case you missed these events, and you would like to access the sessions, please see below:

[Understanding the historical information behind the challenges and the risk factors of the LGBTQIA2S+ BIPOC \(Part 1\)](#)

[Enhancing the protective factors for the LGBTQIA2S+ BIPOC \(Part 2\)](#)

[Moving the needle: How to improve the current behavioral health system to increase engagement and retention of LGBTQIA2S+ BIPOC? \(Part 3\)](#)

[How can we transform this information into actionable and practical steps to enhance service delivery to the LGBTQIA2S+ BIPOC and make a difference? \(Part 4\)](#)

During each session, panelists shared their experiences as subject matter experts and/or lived experiences. The sessions were very well received by the participants.

Our community asked us to provide additional resources around LGBTQIA2S+ BIPOC populations. As a result of this request, our team put together an extensive list of articles, trainings, websites, materials and you can access the information and share it with your family, friends and colleagues.

Thank you!
¡Gracias!

Website: <https://drugfree.org/article/how-to-protect-your-lgbtq-child-from-the-risk-of-substance-use/>

Description: From mood swings to rebellion, the teen years can be a time of risk-taking and limit-testing. Ever-changing social media posts, friendships, classes, clubs, family responsibilities, romantic interests and more freedom can lead to a sense of belonging, excitement, and happiness one moment while resulting in feelings of isolation, anxiety, sadness and low self-esteem in the next.

CDC: Health Disparities Among LGBTQ Youth

Website: <https://www.cdc.gov/healthyyouth/disparities/health-disparities-among-lgbtq-youth.htm>

Partnership to End Addiction: LGBTQ+ Resources Looking for LGBTQ-Friendly Treatment for Your Child? Here are 9 questions to ask.

Website: <https://drugfree.org/article/looking-for-lgbtq-friendly-treatment-for-your-child-here-are-9-questions-to-ask/>

Description: Whether outpatient or inpatient, not all treatment programs are alike, nor do they all offer the same services. LGBTQ patients, and especially transgender patients, have high rates of leaving treatment before completion. Lack of support, inadequate facilities, therapists who don't understand, disrespect by staff and bullying by other patients are all reasons that LGBTQ people leave early. The following are questions to consider when choosing an affirming treatment program for your child.

Partnership to End Addiction: Resources for Parents and Caregivers of LGBTQ+ Youth

Website: <https://drugfree.org/article/resources-for-parents-and-caregivers-of-lgbtq-youth/>

Description: The stigma and discrimination often experienced by LGBTQ+ youth increase their risk for substance use and addiction. You can protect and support your child by affirming their identity. The following organizations are a great place to begin connecting with the LGBTQ+ community and discovering how to become a stronger ally for your child.

Partnership to End Addiction: Considerations for Medication to Treat Opioid Disorder Within the LGBTQ+ Community

Website: <https://drugfree.org/article/considerations-for-using-medication-to-treat-opioid-disorder-within-the-lgbtq-community/>

Description: Unfortunately, the LGBTQ+ community experiences higher rates of opioid use disorder (OUD) than people in the sexual and gender majority. Here are some considerations for Medication to Treat Opioid Disorder Within the LGBTQ+ Community.

American Foundation for Suicide Prevention: Additional Resources

- LGBTQIA+ Glossary of Terms for Health Care Teams

Website: <https://www.lgbtqiahealtheducation.org/wp-content/uploads/2020/10/Glossary-2020.08.30.pdf>

Description: Becoming familiar with terms used by lesbian, gay, bisexual, transgender, queer, intersex, asexual, and other sexual and gender minorities (LGBTQIA+) can help you provide patients with the highest quality care. In this glossary, you will find terms relevant to the health care and identities of LGBTQIA+ people.
