SAPST

The SAPST is a SAMHSA developed foundational course in substance abuse prevention. This four-day, in-person training prepares participants to move from prevention science and theory to practice using the Strategic Prevention Framework. This course is offered four times per year in various locations across the state.

SAPST SNIPPETS

A locally developed virtual series designed to elaborate and refresh topics from the greater SAPST curriculum. Topics include Logic Models, Epidemiology & Working with Data, Cultural Competence, SPF Overview, Assessment, Capacity, Planning, Implementation, Evaluation, and Sustainability.

CULTURAL AWARENESS SERIES

A series designed to highlight national observances and provide deeper exploration/discussion around prevention topics specific to that highlighted population.
