Keeping Our Prevention Efforts Going amid Social Distancing needs –
A Pop-Up Peer-Sharing Event

Friday, March 27, 2020, 1 to 2 pm ET

COVID-19 is changing many aspects of our life, including how we do our work. Given the current challenges, prevention practitioners have limited ability to convene collaborative groups in traditional ways and, as a result, there is increasingly the need to move prevention efforts online. Join us for a virtual peer-sharing opportunity to hear preventionists from across Region 2 share strategies for bringing prevention into the virtual realm. Some of the questions we'll explore include:

- What prevention activities can and should continue under the current circumstances?
- How can you use social media to get your prevention messages out?
- What are best practices for working in the virtual space?
- What innovative steps are you taking to move your prevention work online?

To register, click [here](#).

We hope you can join us!
