# Preface

This document was prepared by the [Northwest Prevention Technology Transfer Center \(PTTC\)](#) under a cooperative agreement from the Substance Abuse and Mental Health Services Administration (SAMHSA). All material appearing in this document, except that taken directly from copyrighted sources, is in the public domain and may be reproduced or copied without permission from SAMHSA or the authors. Citation of the source is appreciated. Do not reproduce or distribute this presentation for a fee without specific, written authorization from the Northwest PTTC. At the time of this presentation, Elinore F. McCance-Katz, served as SAMHSA Assistant Secretary. The opinions expressed herein are the views of the authors and do not reflect the official position of the Department of Health and Human Services (DHHS), SAMHSA. No

official support or endorsement of DHHS, SAMHSA, for the opinions described in this document is intended or should be inferred.

This resource is not meant to be exhaustive, but instead serve as a starting place for prevention practitioners and community coalition members interested in cannabis policy and regulation. As cannabis policies and regulation change, The Northwest PTTC will periodically review and update this resource. Additional Northwest PTTC resources on this topic are listed at the end of this document.

This work is supported by the following cooperative agreement from the Substance Abuse and Mental Health Services Administration: Northwest PTTC: H79SP08099

## Acknowledgments

SAMSHA's Northwest National Prevention Technology Transfer Center Network created this document with the assistance of Julia Dilley and Mary Segawa. Contributing network workgroup members represent the states of Alaska, Idaho, Oregon, and Washington.

# HHS Region 10, Cannabis Policies and Regulations: A Multi-State Comparison Across Three Northwestern States

The table below is a brief snapshot of the policies in Alaska, Oregon, and Washington categorized under the 5 Ps for Prevention: 1) Public Safety, 2) Placement and Access, 3) Product and Potency, 4) Promotion and Advertising and 5) Pricing.

This document provides a comparison of policies in these 3 states with references to the statutes and rules for each. It is recommended that prevention practitioners use this table in conjunction with two additional Northwest PTTC resources in this series:

1. HHS Region 10, State Cannabis Policies and Regulations: A Guidance document for Northwest Substance Misuse Prevention Practitioners.
2. Individual Cannabis Policy Summaries for HHS Region 10 States: Alaska, Idaho, and Oregon and Washington.

Using these combined resources will assist prevention practitioners in:

- a. Understanding the policies listed below and their connection to public health and prevention;
- b. Seeing how individual state policies and regulation compares with the other states in the HHS Region 10; and
- c. Having the research basis for educating on good public policy.

Cannabis rules and regulations can change quickly. The table below includes citations for the specific statutes (laws) and rules for the stated policies so you may refer to them to ensure you have the most up-to-date and detailed information.

Links to the statutes and rules for each state are listed on the next page. Once you go to the link, you can easily find the specific law or rule by number.

Keep in mind that the statutes are laws either passed by the legislature or by citizens via an initiative. The rules are developed by the regulatory agencies to implement the laws as passed. Regulatory agencies may not change the laws as they develop the rules.
