DESCRIPTION

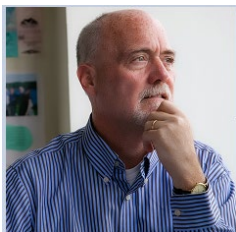

Many families are experiencing the combined stressors of the pandemic and the pending holiday season. Prevention practitioners are seeking timely ways to reach out to families with relevant tools, practices and programs that are research-based and available in an online format. Join us for a session on effectively managing family conflict from the *Guiding Good Choices* curriculum. Kevin Haggerty and Dalene Beaulieu will model a virtual session from the *Guiding Good Choices* parent workshop series. The goals of this webinar are to model delivering the program in a virtual environment and to provide skill content on conflict management during the double stressors of the holiday season and the COVID-19 pandemic.

OBJECTIVES

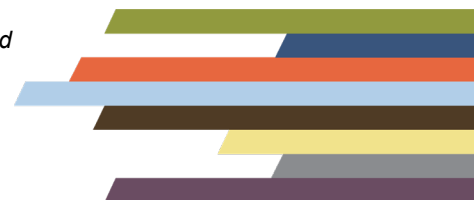

By the end of the webinar, participants will be able to:

1. Deliver this module in a virtual environment.
2. Acquire skills to manage conflicts that arise during the holiday season and the pandemic.
