

Strategic Prevention Framework

Prevention Strategy Identification Worksheet

While participating in the Preventing Trauma and Its Consequences webinar training, use this worksheet to take notes and identify strategies and thoughts in each session that are most relevant to your own work in addressing trauma in your community.

Your notes can be used to continue the discussion with others in your agency, and within this group, as you identify activities in each of the Strategic Prevention Framework steps that would benefit you.

Assessment (i.e., collecting data, risk and protective factors, identify existing resources)

Capacity (i.e., identifying resources and determining community readiness)

Planning (i.e., establish criteria for prioritizing risk and protective factors, selecting prevention interventions, develop a data driven prevention plan)

Implementation (i.e., mobilize support and build capacity, carry out evidence-based interventions, monitor, evaluate and adjust)

Evaluation (i.e., process evaluation, outcome evaluation, qualitative/quantitative data collection)

Cultural Competency (i.e., norms, values, beliefs, symbols, practices)

Sustainability (i.e., community support, organizational capacity, effectiveness)
