

# Prevention Action Planning Template: Integrating the Social Determinants of Health

Use this template to develop your action plan to incorporate the Social Determinants of Health in your prevention efforts as a prevention professional, and as a coalition. The Social Determinants of Health include:

**Economic Stability:** The ability to afford health-supporting purchases, such as food and housing

**Education Access and Quality:** The ability to obtain a high-quality education

**Health Care Access and Quality:** The ability to obtain high-quality health care services

**Neighborhood and Built Environment:** The ability to live safely and avoid danger

**Social and Community Context:** The ability to have positive relationships with people around us

Goal:					
Action Step(s)	Priority Audience for Outreach ( <i>Populations or Agencies</i> )	What is the related Social Determinant of Health? How is it related?	Resources/Training Needed	Benchmark of Success	Ongoing Plan
