

PTTC & SPTAC Comparison Brief

The Substance Use and Mental Health Services Administration (SAMHSA) funds a variety of substance use prevention programs including the Prevention Technology Transfer Center Network (PTTC Network) and the Strategic Prevention Technical Assistance Center (SPTAC), both funded by SAMHSA's Center for Substance Use Prevention (CSAP).

This brief compares and contrasts the mission, services and audiences of the PTTC Network and SPTAC, and describes how to take advantage of their excellent free prevention resources.

Prevention Technology Transfer Center (PTTC)

The purpose of the PTTC Network is to improve implementation and delivery of effective substance use prevention interventions, and provide training and technical assistance services to the substance use prevention field.

Strategic Prevention Technical Assistance Center (SPTAC)

SPTAC is a SAMHSA national training and technical assistance (T/TA) center dedicated to helping SAMHSA Grantees achieve better outcomes by advancing the application of culturally responsive, evidence-based substance misuse prevention programs, guided by SAMHSA's Strategic Prevention Framework.

The PTTC Network and
SPTAC Both Provide

- In-person and on-line prevention trainings
- Interactive webinars
- Toolkits
- Prevention research summaries & issue briefs
- Training and technical assistance
- Collaboration and networking

Who Do We Serve?
