The use of affirming language inspires hope.

**LANGUAGE MATTERS.**

**Words have power.**

**PEOPLE FIRST.**

The PTTC Network uses affirming language to promote the application of evidence-based and culturally informed practices.

THE DANYA INSTITUTE

# Training Objectives

- Understand the importance of language in reducing stigma.
- Identify a minimum of 2 strategies for substance use prevention.
  - Substances covered to include alcohol, cannabis, vaping, and prescription drugs.
- Identify a minimum of 3 interest groups to collaborate with on evidence-based prevention strategies.

# Objective 1

Understand the importance of language in reducing stigma.

“Words are important. If you want to care for something, you call it a ‘flower’; if you want to kill something, you call it a ‘weed’.” – Don Coyhis

A dense field of bright yellow dandelions with green stems and leaves. The flowers are in various stages of bloom, some fully open and some as buds. The background is a soft-focus field of more dandelions.

“The only difference between a flower and a weed is judgement”. – Wayne Dyer
